

Spring Inspiration, Summer Love

The warm season is the time to renovate, and this TIDG kitchen project truly captures the spirit of summer freshness all year round. The durable black ‘sintered stone’ counters and classic black and white penny tile floors perfectly anchor the captivating cabinets, custom painted in Benjamin Moore’s ‘Florida Keys Blue’—a bold, beautiful twist that truly puts a spring in our step.

To see this renovation in depth, find the coverage on houzz.com (with before and after photos), and in the premier issue of Our Homes Toronto, available now.

The bi-annual TIDG newsletter keeps you updated on our boutique studio—and our design family.

Award Season

The Toronto Interior Design Group is proud to have been honoured with three major awards to begin the year: the 2017 Consumer Choice Award for Business Excellence: Interior Designer category, 2017 Houzz badges for Service and Design, and the 2017 Build Innovators in Design award. Thanks to all who voted!

Mega Instant Makeover

Our principal designer Yanic Simard loves making design dreams come true, and he recently got to grant a makeover wish in a MEGA way—with his very first Mega Instant Makeover. Not only did a lucky Cityline viewer get a dramatic room re-do, but this edition had a twist: full paint and new furniture for the space.

After the new look was unveiled, Yanic caught up with old friends: host Tracy, and past House & Home editor Suzanne Dimma—part of Yanic’s Cityline family for the last 8 years. Missed the ep? Just visit cityline.com.

All Access Pass

In March, Yanic and the Toronto Interior Design Group team took a trip to New York City to visit the Architectural Digest Design Show—we went for inspiration and we found it in spades!

To see more inspiring images from the show, follow [@tidgboutique](https://www.instagram.com/tidgboutique) on Instagram (as well as [@yanicsimard](https://www.instagram.com/yanicsimard)), and keep up with all the projects, news and design adventures from our boutique design studio.
